DETAILED ACTION

Claim Objections

1. Claims 2 and 11 objected to because of the following informalities:

Claim 2 and 11 reintroduce "at least one depressed ... foodstuff" in claims 1 and 10. This is a double inclusion.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-5, 9-14 and 16a re rejected under 35 U.S.C. 102(b) as being anticipated by Dunbar (6,209,748). Dunbar discloses, in fig.10, A disposable lid for covering and closing the open end of a beverage cup, comprising: a top surface 226, a side surface 214 extending downwardly from the top surfaces and a lip-engaging portion 228; wherein the lip-engaging portion is defined by a top wall 227 and an outer wall 228. The outer wall joined together with the side surface by the top wall; wherein the top surface is spaced apart from the lip engaging portion and is joined together with the lip engaging portion by the side surface; and wherein the top surface comprises at least one depressed area formed therein with a depth-sufficient for receiving and containing foodstuff.

Claim Rejections - 35 USC § 103

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 7, 8 and 15 are rejected under 35 U.S.C. 103(a) as being unpatentable over Dunbar in view of Haynes et al. (6,932,231) or Law (3,777,968).

Haynes et al. disclose, in col. 1, lines 13-15, indicia, logos or information may be included on a drinking lid.

Law discloses, in fig. 2, a drinking lid comprising an advertisement or information on the top surface of the lid.

Therefore, it would have been obvious to one having ordinary skill in the art at the time the invention was made to provide indicia, logos ..., as taught by Haynes or Law, in order to provide a decoration, information and advertisement of the container on the lid.

Response to Arguments

6. Applicant's arguments with respect to claims 1-16 have been considered but are moot in view of the new ground(s) of rejection.
